

PACKING LIST

Downrange will provide all necessary field and tactical EQ, your ACU uniform top, under-shirts, rain gear, and a fleece jacket should you need one at night. We tried to keep your personal packing list short. The following items are best brought by you for your comfort and size accuracy. Please keep in mind you have 3.5 days plus your travel days, so pack accordingly.

Clothing

Shoes. Pants. Socks. That's it! Please see our suggestions. *(Underwear is optional but pants are mandatory)*

Hiking / Trail Boots

You will want a good pair of hiking or tactical boots since the walking will be in various terrain and they will get wet. We recommend at least 3/4 height with Moisture-wicking and quick-drying features. We wear Saloman or Merrell. But you should get what ever is most comfortable for you. **BREAK THEM IN!**

Socks 5 pairs

Get socks that do a decent job keeping your feet from sweating. They will get wet so you will want spares, avoid cotton.

Pants

Khaki lightweight outdoor/hiking pants are the uniform.. At least 2 pair. 3 if you like clean pants everyday. Khaki color is tan/sand/beige... Not green. Not brown. Not camo.

Under-Layer Leggings

1 each optional for fall class. Not necessary in summer.

Toiletries and Personal Items

Pack items you would normally travel with. You are staying in a very nice lodge every night so you can expect normal hotel amenities. Additional items we recommend you include:

- Watch...being on time is crucial.
- Baby wipes travel size
- Airborne Vitamin C tablets once a day work well to keep you healthy

Salomon

Merrell

Military style tactical

Leggings

Khakis
